

REMARKS

Applicants respectfully request entry of the following remarks and provisional election. In response to the Restriction Requirement, dated March 10, 2005, Applicants hereby elect with traverse Group I, directed to original claims 1-16 and 20. Applicants have withdrawn claims 17, 18, and 19 without prejudice or disclaimer. Applicants reserve the right to file one or more divisional, continuation, or continuation-in-part applications directed to withdrawn or non-elected subject matter disclosed in the application as originally filed. Applicants have added new claims 21-46. Claims 1-16 and 20-46 are therefore pending in this application. All of pending claims 1-16 and 20-46 are directed to a single invention. Particularly, each of the pending claims is drawn to a method of detecting intracellular lymphocyte antibodies.

Applicants have amended claim 1 to recite that the antibody is newly synthesized. Support for the amendment to claim 1 can be found in the specification as originally filed at page 4, lines 15-21. Applicants have amended claim 2 to recite that the sample is lymph or blood. Support for the amendment to claim 2 can be found in the specification as originally filed at page 5, lines 21-25. Applicants have amended claim 9 to recite that the storage of the sample occurs at a temperature of about 4 °C. Support for the amendment to claim 9 can be found in the specification as originally filed at page 9, lines 9-14. Support for each of the claims may be found throughout the specification as originally filed, such that no new matter has been added by this amendment.

Written support for new claims 21-46 can be found in the specification as follows:
